Sir:

INFORMATION DISCLOSURE STATEMENT

As suggested by 37 C.F.R. 1.97, the undersigned attorney brings to the attention of the Patent and Trademark Office the references listed on the attached form PTO/SB/08a. In addition, attached is an International Search Report issued in PCT International Application No. PCT/GB2004/003954 filed September 16, 2004, which is due to enter the National Phase on March 17, 2006, together with the two Loadman, et al references. The International Search Report indicates that the passages on page 423, column 1, lines 13-16 and Table 1 of the Loadman reference entitled "A Preclinical Pharmacokinetic Study of the Bio-reductive Drug AQ4N", are particularly relevant.

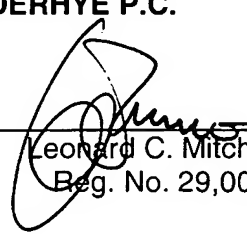

This is not to be construed as a representation that a search has been made or that no better prior art exists, or that a reference is relevant merely because cited.

The Examiner is requested to initial the attached form PTO/SB/08a and to return a copy of the initialed document to the undersigned as an indication that the attached references have been considered and made of record.

Respectfully submitted,

NIXON & VANDERHYTE P.C.
